Profile:

Senior student and outstanding performer in academic and social activity within the University of Electronic Science and Technology of China (UESTC). I am a dedicated, hardworking, and proactive Computer Science Engineer with a strong background in programming, database and computer networking. I am currently looking for an opportunity to utilize my technical skills in a challenging working environment and become a valuable asset to the institutions that I'm studying beside achieving my ambition and goals. I have proven success in academics and certified a first-rank in both academic achievement and excellent performance award for the consecutive three years of 2017-2020 in my undergraduate study at UESTC.
